

TIMELINE

PROCESS DETAIL

DISCOVERY

- Toolbox initiates each project with a discovery session where we learn your goals and objectives for website and brand

DESIGN

- All content must be approved by the client prior to design

DEVELOPMENT

- Designs must be approved by client prior to development

QA TESTING

- Test for Quality Assurance and User Experience

LAUNCH DAY

- Test for Quality Assurance on live site
- Account for time to fix broken links and site populating

TRAINING

- Teach your team how to use and edit your website
